PROFILE

As a skilled web developer specializing in React, I possess a comprehensive knowledge of JavaScript and the React framework. Additionally, I am well-versed in essential web technologies like HTML and CSS. Drawing upon my expertise, I excel at creating resilient and intuitive web applications that harness the full potential of React, resulting in outstanding user experiences.

PROFESSIONAL EXPERIENCE

Dec 2022 – Present

Internship   IT Solutions –.

During my internship at   IT Solutions in   I had the privilege of acquiring valuable expertise in React. This opportunity not only allowed me to grasp the intricacies of React but also enabled me to master state management tools like Redux, which have proven vital in my professional journey as a developer. Through this enriching experience, I developed a robust comprehension of web development and honed my skills by working on various projects involving React JS and Node JS frameworks. I actively contributed to the development of web applications and web services, further strengthening my proficiency in these technologies.

PERSONAL PROJECTS

Erios (Hotel Booking)

During my personal projects, I embarked on an exciting venture called Erios (Hotel Booking), which aimed to create a comprehensive hotel rooms booking system. This React JS project presented an opportunity for me to leverage a range of technologies and seamlessly integrate them. In the realm of frontend development, I utilized React JS, while employing Redux for efficient state management. Additionally, I delved into the realm of backend development, employing Node JS to build robust functionalities. The culmination of these efforts resulted in a feature-rich hotel booking system accessible through the following link:https://defiant-baseball-cap-ox.cyclic.app/

Driving School (Course booking app)

https://frail-seal-earmuffs.cyclic.app/

I successfully spearheaded the development of a comprehensive course booking application for a driving school. Leveraging my expertise in React.js, Node.js, JavaScript, and HTML/CSS, I designed and built a robust system. seamlessly integrating backend seamlessly integrating backend APIs, I enabled real-time fetching and updating of course information, ensuring accurate availability and a seamless booking process for users. This project not only showcased my technical prowess but also demonstrated my ability to create user-friendly and efficient web applications tailored to specific business needs.

Portfolio (Personal info)

You can check out my portfolio at https:/   portfolio/ I crafted this portfolio using a combination of HTML, CSS, and Javascript. To enhance the design and ensure responsiveness across various devices, I employed the Bootstrap framework. \
overview of my background and skills. You'll find my resume and comprehensive information about me, along with a showcase of my recent projects and works. Feel free to explore and get a better understanding of my expertise and accomplishments.
